AlTameer AlMotakadima

A blurred background image of a construction site. In the foreground, two men wearing white hard hats and white shirts are seen from behind, looking towards a large, multi-story building under construction. The building's concrete frame is visible, with many windows and balconies. Scaffolding and other construction equipment are scattered throughout the site. The sky is bright and overcast.

Accuracy, commitment and high quality are the keys
of our success

About Us

The Riyadh-based company "Al-Tarar Al-Mohabalah" was established in 2008 to offer premium contracting services in Saudi Arabia. Since the beginning, the company has been striving to lead the construction industry by delivering its services to all sectors across the Kingdom, while employing cutting-edge technology as well as adhering to the highest and latest quality standards.

The company has established and developed several projects for a wide range of sectors, such as: The banking sector, the hotel sector, the educational sector, firms and administrative buildings, restaurants, gas stations, in addition to all finishing and decorative works, as well as the implementation of electromechanical works.

Additionally, the company has an integrated division for works that are complementary to each other, which includes:

metal, aluminum, carpentry and glass works.

Backed by its innovative solutions and well-qualified manpower, Al-Tarar Al-Mohabalah has been able to gain the trust of its customers.

Our Vision

Al-Tarass Al-Mutakadidna seeks to use all the available resources and talents to provide the highest level of quality and accuracy, as well as its full commitment, at every stage of the project.

Our Message

Al-Tarass Al-Mutakadidna aspires to participate in the Kingdom of Saudi Arabia's infrastructural and urban growth, by delivering our services equally to all sectors, with the same quality and perfection, regardless of the required volume, type, or geographical location of the job.

Our Goals

Al-Tarass Al-Mutakadidna aims to reach new horizons of engineering innovation and construction implementations to meet the needs of our customers. We also seek to increase the cultural and aesthetic landscape of each project, as well as offering for our clients the maximum comfort, working to the highest standards of engineering quality.

What makes us the best?

The level of accuracy we attain in all stages of the work, our quality in implementation, our commitment to meeting deadlines, and our well-trained manpower, all put us all the forefront.

"In order to build any industry, companies must exert every effort and adhere to scientific principles, as well as keeping up with the latest technologies."

It is noteworthy that the contracting industry is one of the most important economic foundations in any country, since it is considered as the country's cultural and artistic front door, as well as its main income.

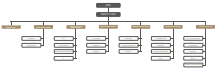

Therefore, we, at Al-Tamara Al-Misakalima Company, have always worked hard to keep up with our customers' expectations in construction and development, by making full use of the latest technologies."
